Eligibility:

Anyone who received Moderna or Pfizer series at least 6 months ago and are 65 years and older OR age 18 and older who:

- live in long-term care settings OR
- have underlying medical conditions OR
- work or live in high-risk settings

Anyone age 18 and older who received the Johnson & Johnson vaccine at least 2 months ago.

Type of vaccine:

Eligible individuals may choose which vaccine they receive as a booster dose. Some people may have a preference for the vaccine type that they originally received, and others may prefer to get a different booster. CDC's recommendations now allow for this type of mix and match dosing for booster shots. For example, if you got your 1st 2 doses of Moderna or Pfizer, or your 1 dose of Johnson & Johnson, you can get either a Moderna or Pfizer or Johnson & Johnson booster.
