

Let's end COVID, Kent County.

---

## Kent County Health Department Vaccine Clinics

### Week of March 22-26

---

#### **TYPES OF CLINICS:**

The Kent County Health Department typically offers two types of clinics: CLOSED, and PUBLIC.

- The CLOSED clinics are usually for employees in priority designations (i.e, education, or continuity of government) or other identified groups such as assisted living facilities. Our 2nd dose clinics are also considered CLOSED because they are by email invitation only to people who have received their 1st dose through KCHD
- The PUBLIC First Dose Clinics are open to those who meet the eligibility criteria. This week there is one public clinic on Wednesday, March 24th. Registration will open at approximately 10 am on Wednesday, March 17th. [Visit this link to register](#) if you meet the eligibility criteria.

#### **PRODUCTS OFFERED:**

- The Moderna Vaccine will be given at First and Second Dose Clinics this week. **Consumers who prefer a specific vaccine product must sign up for a clinic where that product will be offered. Recipients will not have the option to choose a manufacturer at the time of vaccination.**

***The full schedule is on page 2 of this document.  
For the most up to date information visit our website [kenthd.org](http://kenthd.org)***
