STATE OF MARYLAND

Appointments for Closed Vaccine Clinics Week of February 1 being reviewed for eligibility. Appointments for non-eligible individuals will be canceled.

January 29, 2021 -The registration links for Closed Vaccine Clinics during the week of February 1 were inadvertently shared on Social Media. As a consequence, many individuals signed up for appointment slots who were not in the group being targeted for these clinics. The Kent County Health Department has reserved these slots for residents over the age of 65 who are receiving services from local senior care agencies. These individuals represent our most vulnerable citizens. They often do not have internet access, a smartphone, or the ability to use these devices. A corp of dedicated volunteers is working with these individuals to schedule them for the closed clinic appointments.

The Health Department is in the process of reviewing appointments for next week's closed clinics. Registered individuals will have their appointments canceled if they meet the following criteria:

- 1) Under the age of 65
- 2) Do NOT live in Kent County, MD zip code

The Health Department is committed to getting every citizen vaccinated against COVID-19. At this time supply of vaccines is SEVERELY limited. The Health Department is actively prioritizing those individuals who are at the greatest risk from a COVID-19 infection. More vaccination opportunities will be available in the future. Please be patient.
