For immediate release:

Today, health officials in conjunction with the Kent County Commissioners are announcing the third confirmed case of COVID-19 in Kent County. The county resident, a male individual in his 30's, has recent travel history to areas where COVID-19 is known to be present. He has no known preexisting conditions. The resident received testing on March 23, 2020, and results were reported to the Health Department this evening. Kent County Health Department has contacted the individual and a contact tracing investigation is underway. This individual has been self-isolating for the past 17 days, and is recovering at home.
